

**Township of Bloomfield, NJ  
Directory of Health Related Services  
2006**

**This project was made possible in part through a generous grant from Mountainside Hospital**

Dear Residents & Health Care Providers,

In May of 2005 the Department of Health & Human Services (Department) completed the first known comprehensive Health Needs Assessment of Bloomfield. One key finding of that Assessment was that many residents have difficulty in identifying health care resources. Based on that finding, the Department began the process of gathering information on local health care providers and other related services. This Directory of Services is the result of that effort.

In this Directory you will find hundreds of health care providers and other services. All of this information was verified by the service providers themselves. Of course this type of information changes frequently, and as such this Directory will be updated annually.

The most up to date version of this Directory can always be found on line at our website. The web address is [www.bloomfieldtwpnj.com/health/directory\\_of\\_services.htm](http://www.bloomfieldtwpnj.com/health/directory_of_services.htm).

We hope you find this Directory to be a valuable resource in your search for health care services. As always, we encourage your suggestions and feedback on this and any other public health matter or concern.

Wishing you the best of health,

Trevor J. Weigle, Health Officer  
Director of Health & Human Services
