

Bloomfield Department of Health & Human Services

DASHBOARD

2017 - Monitoring the Quarterly Progress of the Department's Goals

Divisions of Bloomfield Department of Health & Human Services:

1) Administration/Vital Records

Vital Records, also known as Vital Statistics, handles records of life events which must be kept under government authority. It includes birth certificates, marriage licenses, death certificates, and records of civil unions and domestic partnerships. Vital Records is mandated by New Jersey Department of Health, NJAC 8:52: *Public Health Practice Standards of Performance for Local Boards of Health in NJ*. http://www.nj.gov/health/lh/documents/chapter_52.pdf

2) Environmental Health

Environmental Health conducts routine sanitary inspections of businesses and service providers. The sanitary inspections include but is not limited to food at restaurants, deli's, cafeterias, schools, and churches, daycare centers, nursing and boarding homes. Business inspections are conducted at hair and nail salons, barber shops, tattoo/body art shops, massage parlors, gyms, pet shops/pounds, youth camps and public schools. Inspections are also performed in response to citizen complaints. These complaints can be about solid waste, litter, rodents, noise, odor, housing, property maintenance issues and insufficient heat (from Oct. 1 thru May 15). Other services to local businesses are plan review for new establishments or renovation and inspections for certificate of occupancy. This Division is also responsible for collection of water samples to ensure safe drinking water from residents and local businesses within Bloomfield. Environmental Health offers Food Handler Training Course to individuals who work in food establishments. Environmental Health is mandated by New Jersey Department of Health, NJAC 8:52: *Public Health Practice Standards of Performance for Local Boards of Health in NJ*. http://www.nj.gov/health/lh/documents/chapter_52.pdf

3) Health Education

Health Education assesses the health of the community and develops and provides education programs and promotional materials designed to help residents abandon unhealthy behaviors and adopt new ones. It also provides grant writing and administrative support for the department. Health Education is mandated by the New Jersey Department of Health, NJAC 8:52: *Public Health Practice Standards of Performance for Local Boards of Health in NJ*. http://www.nj.gov/health/lh/documents/chapter_52.pdf

4) Human Services and Social Services

Human Services is the township's outpatient mental health and social services center. Public health social workers provide counseling, crisis intervention, home visits and assessments as required by state-mandated practice standards. A licensed psychotherapy professional provides medication consultation and prescribes medication as needed. Public health social workers screen patients to determine if they are receiving all applicable services from government programs and nonprofit agencies. Referrals and linkage to programs that provide utility, food, prescription, housing etc. are also provided. Social work scope of practice and practice standards can be accessed through the NASW – National Association of Social Workers.

5) Public Health Nursing

Public Health Nursing provides no cost/low cost screening for the residents of Bloomfield. Public Health Nursing provides Child Health Conference, which provides immunizations, infant and childhood development screenings and lead screening. The Public Health Nursing Office also provides Tuberculosis Testing, Management of Latent TB infection, Peri-Natal Hepatitis B Case Management, and Lead Case Management. Annual immunization audits are performed on all Child Care Centers, Nursery Schools, Public and Private

Schools. Public Health Nurses conduct communicable disease investigation and surveillance which prevents the spread of disease.

Public Health Nursing is mandated by the New Jersey Department of Health, NJAC 8:52: *Public Health Practice Standards of Performance for Local Boards of Health in NJ.* http://www.nj.gov/health/lh/documents/chapter_52.pdf

HEALTHY EATING

Goal : To increase availability of and access to nutritious foods for all Bloomfield residents.

***Healthy corner store program in Bloomfield continued from inception. The program has expanded from schools to the entire community.**

Objective: *By December 2017 participate 10 pop-up health clinics in 2 existing corner stores. These corner stores are participants of the Bloomfield department of health human services healthy corner stores initiative.*

By taking part in the Healthy Corner Store program, the participating stores will stock healthy foods, such as fruit and nuts. The participating stores are:

1) Friendly News & Food – 143 Grove Street; 2) Tobacco King II – 128 Montgomery Street;

Stop by and let the store owners know how much you appreciate their having healthy food options in your neighborhood! If your corner store is not participating, let the owner know you would like them to have healthy food choices. Tell the store owner to call Bloomfield Department of Health & Human Services at 973.680.4024 for more information.

Comments as of end of 1st quarter, 2017(1.1.17): A total of two (2) stores are participating in this Program.

No pop-up health programs were conducted due to grant funding not being received in a timely manner. However, one school presentation was conducted at Carteret School and 150 vouchers for a free purchase of a healthy item were given out to be used at Tobacco King II for healthy.

Q2, 2017 3 pop-up health events were held

Active living

Goal : Increase access and to opportunity for active living for all Bloomfield residents

- **Use a consultant to identify areas that create barriers for Bloomfield residents to walk thus creating the Bloomfield Walkability Initiative.**

Objective 1: *By December 2017, have approval by Mayor and council implement infrastructural changes to areas that have been identified as barriers to having individuals be able to walk safely and comfortably in the community.*

Objective 2: By December 2017, have five separate events engaging the community in participating in the Bloomfield walkability initiative.

Keep up with all the activities of this program by reading the blog posts at: <http://www.njhcn.org/blog/>

Comments as of end of 1st quarter, 2017 (3.30.17): The walking audits are to be performed in June of 2017. Once the audits are complete. A report will be generated to propose to mayor and council of needed infrastructure changes.
Q2- Walking audits were performed and report and final report is being completed.

Comments as of end of 1st quarter, 2016 (3.30.17):

Meeting was conducted with consultant and health department staff to kick off kick off the walkability initiative on March 1, 2017. This meeting was to introduce data collected. Decided on the steering committee individuals
Q2, 2017- Street smarts campaign
Kicked off in Bloomfield may 11, 2017. EZ-ride sponsored walk to school day at Brookdale School and Pedestrian safety

Do you know of an intersection where you would like to see the Pedestrian Safety Campaign? Reach out to Bloomfield Health & Human Services.

HEALTH SCREENINGS

Goal: To increase access to chronic disease screenings for all Bloomfield residents.

Objective: By December 2017, at least two additional community partners will collaborate with the BDHHS to conduct blood pressure and BMI screenings.

Collaborate with Community Partners to offer health screenings to residents.

<http://www.cdc.gov/bloodpressure/index.htm>

<http://www.cdc.gov/diabetes/home/index.html>

Comments as of quarter 1, 2017

Q1 2017 – In progress with new community partners to establish new screening locations
First Quarter: 2, Shop-Rite and Heritage Village
Second Quarter: 3, Shop-Rite and Heritage Village and Bloomfield Presbyterian Church on the Green/Food Pantry

Public Health Nursing is partnering with HackensackUMC Mountainside Hospital and Brookdale Shoprite to increase awareness of chronic disease, specifically high blood pressure and diabetes. Two locations have been added to the screening schedule to help increase the public's awareness of high blood pressure and diabetes. The current location is Brookdale Shoprite.

Free Blood Pressure Screenings are held at Brookdale Shoprite the 2nd and 3rd Thursday of every month from 10 am to 12 noon. This is provided by HackensackUMC Mountainside Hospital and Bloomfield Public Health Nurses.

If you are a business located in Bloomfield and would like to become a part of the " Program, please contact the Bloomfield Public Health Nursing Division at 973.680.4058 or nursing@bloomfieldwpnj.com

<http://www.mountainsidehosp.com/Inside-HackensackUMC-Mountainside/Be-Well.aspx>

Comments as of end of 4th quarter, 2016 (12.31.16):

Brookdale Shoprite remains the Health Department's participating location for the campaign at the end of 2016. Other locations were discontinued due to low participation.

Planning is in process to secure additional locations.

MENTAL AND SOCIAL HEALTH

OBJECTIVE: To increase access to opportunities for improved mental and social health for all Bloomfield residents

1. Identify and provide funding for individuals at risk of homelessness who qualify

- Number of people receiving funding

Goal: *By December 2016, at least 10 eligible individuals will receive homelessness prevention funding*

Bloomfield Human Services works with agencies which provide homelessness preventions funds, shelters, and providers of mental health services. The Division also works with landlords, PSE&G and mortgage companies to assist individuals and families who need financial assistance. As part of their case management, the Division collaborates with organizations that assist residents with health insurance, legal referrals, assisted living, nursing home assistance, utility, rental, food programs, and medication to ensure residents receive any and all programs they qualify for.

If you have any questions or would like to know if you qualify, please contact the Bloomfield Human Services Division at 973.680.4017 or humanservices@bloomfieldwpnj.com

Goal: By December 2017, at least 10 eligible individuals will receive homelessness prevention funding

Comments as of 1st of Quarter, 2017(3.30.17):
7 individuals received approval for funding. All individuals receiving funding are required to attend intensive case management to help with budgeting and other available resources.

Quarter 2, 2017 –1
individual received approval for funding. All individuals receiving funding are required to attend intensive case management to help with

Comments as of 1st of quarter, 2017 (6.30.16):
9 families received approval for funding. All individuals receiving funding are required to attend intensive case management to help with budgeting and other available resources.

Quarter 2, 2017- 4
families received approval for funding. All individuals receiving funding are required to attend intensive case management to help with budgeting and other available resources.

ADMINISTRATION

Goal : To decrease non-compliance with Board of Health License renewals

Objective 1: To create a policy for license renewal procedures and enforcement timeline by FEB, 2017

Objective 2: To decrease non-compliance with Board of Health License renewals by 10% by March 31, 2017

Objective 3: To decrease non-compliance with Board of Health License renewals by 10% by December 31, 2017.

Problem: There are no current written procedures and enforcement timeline provided

Comments as of end of Q1, 2017(3.30.17):

Policy has been created and will be implemented by Administration staff as necessary. No further action needed on this objective.

Comments as of end of 4th quarter, 2016 (12.31.16):

No data currently available for this quarter.

Administration has not received a new grant to process.

ENVIRONMENTAL DIVISION

Goal: To decrease the number of quality of life (public health nuisance/solid waste) complaints in Bloomfield by increasing surveillance.

Objective 1: To enhance *Pro-active Investigations* procedures in the Public Health Nuisance/Solid Waste Complaint Protocol by April 13, 2017

Objective 2: To decrease the number of quality of life complaints received in Bloomfield by 10% by December 30,2017

Problem: There is not strong enough language for proactive surveillance in current protocol

Comments as of end of first quarter, 2017 (3.30.17):
Data was compiled and by the end of Dec, 2016 15% decline in overall complaints observed by environmental division. Data continues to be compiled.

Comments as of end of 1st quarter, 2017 (.31.16):
Q1-
Q2-

HEALTH EDUCATION DIVISION

Goal: To increase public awareness of the Health Department’s functions and services

Objective 1: To create 6 podcasts that feature health department functions and services to post on various social media outlets by Dec 31, 2017

Objective 2: To create 4 television/radio broadcasts that feature health department functions and services by Dec 31,2017

Problem: : Lack of interactive media that features Health Department functions and Services.

Comments: Radio show will begin April, 2017. Radio show is streaming live and then will be transformed into podcasts. Bloomfield College Radio WBCR Q2- 3 podcasts have been created from the 3 radio shows

Comments: first radio show is in April 2017 on WBCR Radio. Q2- 2 Radio Shows have been completed and recorded.

HUMAN SERVICES DIVISION

Goal: To organize demographic and informational data of clients in Human Services in electronic format to determine past service history and to expedite services

Objective 1: To increase electronic access to client data by 100% to all staff in Human Services by December 31, 2017

Problem: No electronic database system is currently available regarding client history

Comments:
Due to HIPPA regulations the human services is researching and testing different data collection tools to ensure all HIPPA laws and regulations are met.

PUBLIC HEALTH NURSING DIVISION

Goal 1: Increase vaccination compliance rate of Bloomfield child care centers

Objective 1: Compose documents and related materials for submission to child care centers Regarding influenza vaccination by August 17, 2017

Objective 2: Increase the overall influenza vaccination compliance rate of Bloomfield child Care centers by 5% By March 31, 2018.

Comments:

Documentation and Care System have been completed.
 . No further action is required for this objective.

Comments as of end quarter 1, 2017 (3-30-17)
