THIS AGREEMENT is made and entered into this 28th day of June 2012, by and between **Alaimo Group**, having its principal place of business at **200 High Street, Mount Holly, New Jersey 08060**, hereinafter called "**Consultant**"; and **TOWNSHIP OF BLOOMFIELD**, having its offices at 1 Municipal Plaza, Bloomfield, New Jersey 07003 hereinafter called the "**Client**".

WHEREAS, the Client wishes to retain Consultant for the purpose of proceeding with certain professional services;

NOW, THEREFORE, in consideration of the premises and the mutual covenants and undertakings of the parties hereto, it is agreed as follows:

ARTICLE 1 **SCOPE OF WORK**

Consultant shall provide the services for the Project ("Scope of Work") as set forth in Consultant's Proposal to the Client dated **April 26, 2012**, a copy of which is attached hereto as Attachment A. and the Client's Resolution, dated **June 4, 2012**, a copy of which is attached hereto as Attachment B. All services to be performed by Consultant under this Agreement shall be performed in accordance with the terms and conditions set forth in this document. Services not expressly provided for in the Scope of Work as set forth in the Proposal are excluded from the scope of services and Consultant assumes no duty to perform such services.

ARTICLE 2 **COMMENCEMENT OF AND CHANGES** **IN THE WORK**

- a. Consultant will initiate the tasks as set forth in the Proposal upon receipt of a fully executed Agreement from the Client. Consultant and the Client may at any time, by mutual written agreement, make changes with the general scope of this Agreement by additions, alterations, deviations, or omissions from this Agreement.
- b. If such changes cause an increase or decrease in Consultant's cost of or time required for the performance of this Agreement, or if Consultant, in the performance of the services, encounters conditions differing materially from those anticipated under this Agreement or beyond what could reasonably have been anticipated by an experienced professional in work of the nature involved, Consultant shall be entitled to an equitable adjustment in the compensation and performance time of this Agreement.
- c. If, in the performance of its services, Consultant encounters hazardous materials, or pollutants that pose unanticipated risks, Scope of Work and Consultant's compensation and time of performance will be reconsidered and this Agreement shall immediately become subject to renegotiation or termination, at Consultant's option. In the event that this Agreement is so terminated, Consultant shall be paid for its fees and charges incurred to the date of such termination, including if applicable, any additional fees or charges incurred in demobilizing.

ARTICLE 3 **PROJECT SCHEDULE**

- a. Consultant shall proceed with the work diligently and shall faithfully progress the work toward completion.

- b. It is recognized that other contractors may be retained separately by the Client for the Project (including but not limited to geological, drilling and laboratory contractors) who may provide inputs to the Project to be utilized by Consultant and Consultant shall have the right to rely upon the timely receipt, correctness and completeness of said inputs. Consultant shall not be responsible for the acts, errors or omissions of any remediation action contractors or other contractors working for the Client on the Project.
- c. Consultant shall not have the authority to control the work of contractors retained by the Client and Consultant shall not have any responsibility for the means, methods, sequences, procedures or techniques of Project site safety or for the use of safe construction practices by such contractors, such responsibilities resting solely with Client's other contractors or parties other than Consultant.
- d. Consultant shall not be held responsible for damages or delays in performance (and the direct or indirect costs or consequences arising from such delays) caused or arising in whole or in part from force majeure or other events beyond Consultant's reasonable control and to the extent Consultant is impacted by the same, then Consultant shall be entitled to an equitable adjustment of this Agreement. For purposes of this Agreement force majeure shall include, but not be limited to, adverse weather conditions, changes in law, floods, epidemics, war, riot, strikes, lockouts and other industrial disturbances, accidents, sabotage, fire, terroristic acts, acts of God, acts, orders, laws or regulations of any government agency and unavoidable delays in the receipt of laboratory testing results.

ARTICLE 4
PAYMENT

Payment for the services rendered by Consultant shall be in accordance with the following:

- a. Consultant shall be compensated for its services on a time and materials basis to an amount determined by the Township engineer and/or the Township Administrator.
- b. Invoices shall be submitted monthly by Consultant to the Client and shall indicate the charges due from the Submission Form.
- c. Payment shall be made by the Client within thirty (30) days of its receipt of the invoice. The Client shall promptly review Consultant's invoices and if the Client disputes any amounts invoiced the Client shall give prompt written notice thereof, including the item or items disputed and basis for the dispute. The Client shall in any event pay all amounts invoiced that the Client does not dispute as provided herein.
- d. The compensation for Consultant's services has been agreed to in anticipation of the orderly and continuous progress of the Project through completion. If there are material modifications or changes in the extent of the Project or in the time required for Consultant's services, its compensation and time of performance shall be equitably adjusted.

ARTICLE 5
RESPONSIBILITIES OF THE CLIENT

The Client, at its own expense, will:

- a. Provide all criteria and full information as to the Client's requirements for the Project as specified in the Scope of Work and will make available to Consultant all information, documents and assistance necessary or reasonably requested by Consultant in order to enable it to perform the Services in a timely manner, all of which Consultant shall be entitled to rely upon without independent verification.

- b. Make decisions, provide approvals and obtain all necessary authorizations, licenses and permits required in order to permit the timely performance of the Services, notify Consultant if it becomes aware of any matter that may change the scope, timing, order or complexity of the Services, and act reasonably, professionally and in good faith in all respects in connection with the Agreement.
- c. Upon request by Consultant, furnish Consultant with copies of all existing data, reports, surveys, plans and other materials and information, within the possession of the Client, required for the Project, all of which Consultant may use and rely upon in performing its services under this Agreement.
- d. Arrange for access to and make all provisions for Consultant to enter upon public and private property as required for Consultant to perform its services.
- e. Be responsible for locating existing underground or covered site utilities, pipelines, tanks and other structures owned and operated by the Client prior to the installation of borings, wells or excavations and be responsible for all claims, liabilities and damages resulting from the failure to accurately to locate same. Client shall review all boring, well and excavation locations prior to installation and shall direct that they be relocated if any conflict exists with any underground utilities, tanks or other structures owned and operated by the Client. Consultant shall be responsible for contacting New Jersey One Call or equivalent service to locate those utilities not operated by the Client.
- f. Provide a description of activities which were conducted at the site at any time by the Client or by any person or entity which would relate to the services and identify by name, quantity, location and date any releases of hazardous substances or pollutants.
- g. Give prompt written notice to Consultant whenever the Client observes or otherwise becomes aware of any development that affects the scope or timing of Consultant's services or any alleged defect in Consultant's services.
- h. Designate an individual or individuals to act as the Client's representative(s) with respect to the services to be rendered under this Agreement. Said individual(s) shall each have complete authority to transmit instructions, receive information and interpret and define the Client's requirements, decisions, policies, drawings, plans, surveys, data and reports.
- i. To the extent required by law, promptly report all regulated conditions, including, without limitation, the discovery of releases of hazardous substances at the site to the appropriate authorities in accordance with applicable law.

ARTICLE 6
INSURANCE

Consultant shall carry the following specific types and amount of insurance during the performance of its services and shall provide certificates of insurance evidencing its coverage, prior to starting work on the Project site. The certificates of insurance shall provide for advance notice to the Client of any subsequent modification or cancellation of the coverages.

- a. Worker's Compensation Insurance with statutory coverage and \$1,000,000.00 employer's liability coverage.
- b. Comprehensive General Liability Insurance with annual aggregate limits of \$1,000,000.00
- c. Automobile Liability insurance with annual aggregate limits of \$1,000,000.00.

- d. Professional Liability Insurance with limits of \$1,000,000.00 for each claim and \$1,000,000.00 aggregate each policy period.

ARTICLE 7
GENERAL CONSIDERATIONS

- a. Where provided, statements concerning probable costs and cost estimates prepared by Consultant shall represent their judgment as professionals familiar with such matters. It is recognized, however, that Consultant has no control over the cost of labor, materials, or equipment, over the contractor's methods of determining prices, over regulatory agencies' requirements, or over competitive bidding or market conditions. Accordingly, Consultant cannot and does not guarantee that costs will not vary from any statement of probable construction cost or other cost estimate prepared by it nor warrant or guarantee any specific outcomes or results
- b. All documents prepared and delivered by Consultant pursuant to this Agreement are instruments of service in respect of the Work ordered. They are not intended or represented to be suitable for reuse by Client or others on extensions of the Work or on any other project. Client shall not reuse said documents without the express written consent of Consultant. Any such reuse shall be at the sole risk of the Client, and the Client shall indemnify, defend and hold Consultant harmless from any losses, claims, expenses or damages resulting from such reuse.
- c. Project Records – As used in this Agreement, the term, "Records", shall include plans, reports, documents, field notes, work product, or other items generated or obtained for the Project by Consultant. Only original signed and sealed documents and drawings shall constitute Records. Unsigned or unsealed copies, prints, CADD files, computer programs, magnetic deliverables and/or any other media shall not be considered Records. If there is a discrepancy between the signed and sealed Records and any other documents or drawings, the Records shall prevail.
- d. Records which are instruments of service deliverable under this Agreement shall become the property of the Client upon payment for all the Work. Originals of Records shall remain in the possession of Consultant. The Client shall be entitled to additional copies of all Records within a reasonable period of time after forwarding a written request to Consultant, provided that the Client has paid the Consultant for all the Work. Consultant shall be compensated for the reasonable costs of research and reproduction of the additional copies of the requested Records.
- e. Consultant will (a) perform the Services with due care and skill in accordance with the standard of care normally exercised by professionals providing similar services under similar circumstances, and (b) re-perform any Services that fail to comply with this standard of care if Client gives Consultant notice of such failure within 12 months of performance of such Services.
- f. Because geologic and soil formations are inherently random, variable, and indeterminate in nature, the services are not guaranteed to discover actual site conditions or levels of contamination, all of which are also subject to change with time as a result of nature or man-made processes.
- g. Consultant's services shall not include an independent analysis of work conducted by or information provided by independent laboratories or other independent contractors retained by Consultant in the performance of the services.
- h. Unless specifically listed in the Proposal, Consultant's services exclude testing for the presence of asbestos, polychlorinated biphenyls (PCB's), radon gas, or any airborne pollutants.
- i. Unless specifically listed in the Proposal, in the event that samples and/or materials contain or are suspected to contain substances or constituents hazardous or detrimental to health, safety, or the environment as defined by federal, state, or local statutes, regulations, or ordinances, Consultant will, after completion of testing, return such samples or materials to the Client, who will be responsible for having such samples and materials properly disposed of in accordance with

applicable laws, at its own cost. The Client recognizes and agrees that Consultant will at no time assume the ownership or control of said waste.

- j. The Client acknowledges that, prior to commencing the work, Consultant has had no role in generating, treating, storing, transporting or disposing of waste materials which may be present at the project site and Consultant has not benefited from the processes that produced any such waste materials. It is understood and agreed that Consultant is not and has no responsibility as a generator or operator or as a storage, treatment, transport or disposal facility (as those terms are defined by the Resource Conservation and Recovery Act, as amended, or any state statute or regulation) for substances or wastes found or identified at the work sites. Consultant's services shall not include directly or indirectly arranging for the treatment, storage, transport or disposal of waste materials or pollutants, on or off site. Consultant shall not directly or indirectly assume title to, ownership of, or responsibility for such substances or wastes, and the Client shall indemnify, defend and hold harmless Consultant for and against all claims and liabilities arising or resulting from or in connection with substances or wastes found or identified at work sites (including, without limitation claims and liabilities arising from statutes such as RCRA, CERCLA, SARA, or any other federal or state statutes).
- k. If there are conflicts or inconsistencies with any of the conditions or requirements specified in this Agreement (Articles 1 through 17) with those that may be provided in the attached Proposal (Attachment A), those requirements or conditions within the proposal shall supersede the requirements in this Agreement that are in conflict. The conflicting conditions within this Agreement shall therefore become null and void.

ARTICLE 8
TERMINATION OF AGREEMENT

This Agreement may be terminated by either party by thirty (30) day's advance written notice to the other party without cause; by mutual written agreement with the other party; or by either party on five (5) days' written notice to the other in the event of substantial failure to perform in accordance with the terms hereof through no fault of terminating party. If this Agreement is terminated, Consultant shall be paid for the services properly performed by it and reimbursable expenses incurred, to the effective date of termination.

ARTICLE 9
DELEGATION OF DUTIES

- a. Neither the Client nor Consultant shall assign this Agreement without the written consent of the other. Unless specifically stated to the contrary in any written consent to an assignment, will release or discharge the assignor from any duty or responsibility under this Agreement.
- b. Neither party will, during the term of the Agreement or for a period of 12 months thereafter, either directly or indirectly on its own behalf or jointly with or on behalf of any other person, solicit, engage or employ any employee, independent contractor or other representative of the other party (or any of its affiliates) that has been involved in the provision of Services or with whom the party has otherwise had contact in connection with the Agreement.

ARTICLE 10
INDEMNIFICATION AND WAIVER

- a. Consultant agrees to indemnify, defend and hold harmless the Client of its officers, agents and employees from and against any and all losses, claims, expenses or damages, and from all suits and costs of every description, including but not limited to legal fees and related expenses, to the extent arising or resulting from the negligent acts, errors or omissions of Consultant, its agents, officers, directors and employees in the performance of their services under this Agreement.

- b. Client agrees to indemnify, defend and hold harmless Consultant and its agents and employees from and against any and all losses, claims, expenses or damages, and from suits and costs of every description, including but not limited to legal fees and related expenses, to the extent arising or resulting from the negligent acts, errors or omissions of the Client, its agents, officers, directors and employees in the performance of their services under this Agreement.
- c. In addition to b. above, Client shall indemnify, defend and hold harmless Consultant from and against all losses, claims, expenses and damages in whole or in part arising or resulting from or in connection with substances or wastes found or identified at work sites (including, without limitation claims and liabilities arising from statutes such as RCRA, CERCLA, SARA, or any other federal or state statutes) and including but not limited to losses, claims, expenses and damages which arise in whole or in part out of or are related to, or are based upon, the actual, alleged or threatened dispersal, discharge, escape, release or saturation of smoke, vapor, soot, fumes, acids alkalis, toxic chemicals, wastes, solids, liquids, gases, thermal irritants or contaminants, hazardous, toxic residual or special wastes, materials or substances nuclear material, asbestos material, or any other material, irritant, contaminant or pollutant in or into the atmosphere, or on, onto, upon in or into the surface or subsurface (a) soils, (b) water or watercourses, (c) objects, or (d) any tangible or intangible matter, whether sudden or not.
- d. The Client acknowledges that Consultant's agreement to the amount of compensation provided for under this Agreement has been negotiated and agreed by reason of Consultant's reliance on the foregoing limitation, indemnification and waiver undertakings of the Client.
- e. Any provision or part of this Agreement held to be void or unenforceable under any applicable law or regulation shall be deemed stricken, and all remaining provisions shall continue to be valid and binding upon Client and Consultant who agree that the Agreement shall be reformed to replace such stricken provision or part thereof with a valid and enforceable provision that comes as close as possible to expressing the intention of the stricken provision.

ARTICLE 11 **DISPUTE RESOLUTION**

Client and Consultant agree that any disputes arising out of this Agreement which cannot be resolved through good faith negotiations shall be submitted to binding alternative dispute resolution proceedings to be conducted before ENDISPUTE or a comparable private dispute resolution service. All fees incurred in the maintenance of such ADR proceedings (exclusive of attorney fees) shall be equally born by Client and Consultant.

ARTICLE 12 **ATTACHEMENTS AND SPECIAL PROVISIONS**

- a. The following Attachments are attached to and made a part of this Agreement: Consultant's Proposal to Client, dated **April 26, 2012** (Attachment A) and Client's Resolution signed **June 4, 2012** (Attachment B).
- b. EXTENT OF AGREEMENT

- a. The terms and conditions hereof, together with the Attachments referred to herein, represent the entire and integrated between the Client and Consultant and supersede all prior negotiations, representations or agreements, either written or oral, for this Project.
- b. Nothing herein shall be construed to give any rights or benefits hereunder to any one other than the Client and Consultant. Consultant's work product may not be used or relied upon by any other person without Consultant's express written consent.
- c. This Agreement (consisting of Pages 1 to 8, inclusive), together with the Attachments identified in Section 12 above), constitutes the entire agreement between Client and Consultant and supersedes all prior written or oral understandings.

All new and original intellectual property created by Consultant during the course of performing the Services ("Project IP") is the property of Consultant. Consultant grants the Client a non-exclusive, non-transferable and, unless otherwise agreed, royalty-free license to use (i) any Consultant Background IP used in the performance of the Services but only to the extent required to use any deliverables provided by Consultant for the purpose for which they have been provided, and (ii) Project IP for any purpose whatsoever.

SUBMISSION FORM

1. Names and roles of the individuals who will perform the services and description of their education and experience with projects similar to the services contained herein including their education, degree and certifications.

Alaimo Group proposes an experienced project team for the requested Water Supply Engineering Services. Our project team will be lead by Project Manager L. Russell Trice, P.E., BCEE, Senior Associate, and comprised entirely of "in-house" personnel for all anticipated feasibility/study tasks, permit processing, funding consulting/assistance, water system design, construction phase and operational oversight tasks. We perceive this "in-house" approach as a great advantage and benefit as it ensures an experienced project team that is use to working together as a "team" and allows for greater control over the quality and timing of the product(s). Project Manager, Russell Trice, offers more than thirty (30) years of related experience and represents the firm with the Mount Laurel MUA, Willingboro MUA, Jackson MUA, Brick MUA, and the Utility Departments for the Townships of Florence and Moorestown. Primary assistance for the Feasibility Analysis and Modeling will be provided by James Hampson, P.E., Senior Project Engineer. Mr. Hampson offers more than twenty-five (25) years of related experience, including serving as a Planning Engineer for American Water prior to joining Alaimo Group in 2002. Pursuant to our enclosed Organizational Chart, other experienced Key Personnel will assist throughout the study, design and/or construction phase, and Richard A. Alaimo, P.E., BCEE, President, will provide a Quality Assurance role throughout the project. Pertinent Key Personnel resumes are enclosed.

Water Utility clients that we have provided services to for over thirty (30) years include: Old Bridge MUA, Mount Holly MUA, Evesham MUA, Mount Laurel MUA, Willingboro MUA and Florence Township. We are prequalified with the New Jersey Division of Property Management in Waste/Water Treatment and the related fields of Environment Engineering, Civil Engineering, Structural Engineering, Electrical Engineering and Environmental Consultant. Similarly, we are prequalified with the New Jersey Turnpike Authority, New Jersey Transportation Authority, and numerous counties, agencies, authorities, and municipalities throughout New Jersey. References and a sampling of similar water utility service project successes are enclosed. Please note that Alaimo Group has prior feasibility analysis experience with the North Jersey District Water Supply Commission and the Passaic Valley Water Commission among others.

3. Description of ability to provide the services in a time fashion (including staffing, familiarly and location of key staff):

Alaimo Group possesses staff depth and experience in the Water/Wastewater Department which enables us to provide services in a timely manner. Manpower is available to immediately begin work on the Township's project and complete the work in accordance with Township requirements. Additionally, we have the "in-house" staff to support the other required disciplines (i.e., Structural, Electrical, Permitting, Survey, Construction Management) associated with the design and construction phase aspects of the assignment. This "in-house" approach gives us greater scheduling control to meet the various project timelines. Lastly, as reflected in our enclosed Representative Project Summaries, Alaimo Group has considerable experience in Water System Feasibility Analysis and associated modeling and infrastructure design and construction services.

4. Cost details, including the hourly rates of each of the individuals who will perform Services and all expenses:

EQUAL OPPORTUNITY FOR INDIVIDUALS WITH DISABILITY

The Contractor and the Township does hereby agree that the provisions of Title 11 of the American with Disabilities Act of 1990 (the "Act") (42 U.S.C. S12101 et seq.), which prohibits discrimination on the basis of disability by entities in all services, programs and activities provided or made available by public entities, and the rules and regulations promulgated pursuant thereto, are made a part of this contract. In providing any aid, benefit, or service on behalf of the Township pursuant to this contract, the Contractor agrees that the performance shall be in strict compliance with the Act. In the event that the Contractor, it agents, servants, employees, or subcontractors violate or are alleged to have violated the Act during the performance of this contract, the Contractor shall defend the Township in any action or administrative proceeding commenced pursuant to this Act. The Contractor shall indemnify, protect, and save harmless the Township, its agents, servants, and employees from and against any and all suits, claims, losses, demands, or damages of whatever kind or nature arising out of or claimed to arise out of the alleged violation.
